RE: Crimson Lake Provincial Park Cottage Subdivision Mooring Standards Extension

Dear Greg McGrath:

Thank you for your inquiry on behalf of Crimson Lake Cottage Owners Association regarding an extension associated mooring structures that require a Licence of Occupation (DLO).

The [Disturbance Standard for Temporary Seasonal Docks and other Mooring Structures for Personal Recreation Purposes](#) was implemented in April 2021. If in alignment with the disturbance standard, no additional authorizations or dispositions are required. Those docks and associated shoreline modifications that fall outside of the disturbance standard may require a DLO as previously communicated by the Department on January 22, 2021.

We understand obtaining a DLO has additional costs and regulatory requirements compared to those, which are temporary and removed seasonally. The cottage owners who may require additional time to obtain a DLO can request an extension until March 31, 2023 through our central email at RockyLU.Clearwater@gov.ab.ca.

If you require further clarification, please do not hesitate to contact either Ashley Kelly at 403-755-6163 ashley.kelly@gov.ab.ca or Julia Wachowski at 403-845-8308, julia.wachowski@gov.ab.ca.

Sincerely,

Stephen Shenfield
Bighorn/Edmonton Lands Manager
